

Just pour in your fuel tank!

It is effective in improving the following:

1 Poor starting

2 Rough idling

3 Insufficient power

4 Poor fuel economy

5 Hesitation

6 Engine knocking

7 Excessive vibration

8 Exhaust emissions

9 Engine noise

Ask for Toyota Genuine.

Only Toyota Genuine Injector Cleaners are designed and engineered specifically for your Toyota vehicle.

For more comfortable driving, always ask for a Toyota Genuine Injector Cleaner.

TOYOTA MOTOR CORPORATION

Genuine parts bring genuine value.

Injector Cleaner

Injector Cleaner

Although this new cleaner was developed for "direct gasoline-injection (D-4) engines", it is ideal for use with all types of petroleum engine. This new injector cleaner thoroughly removes injector and combustion chamber deposits, improving idling, hesitation and driveability.

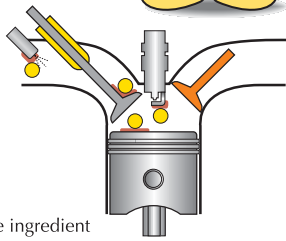

Deposit removal

1

A special active ingredient adheres to accumulated deposits on the injectors, intake valves, combustion chambers, and other areas.

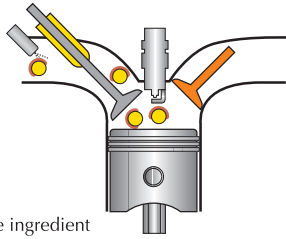

● special active ingredient

2

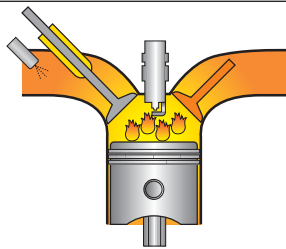

The special active ingredient then transports these deposits to the combustion chamber.

● special active ingredient

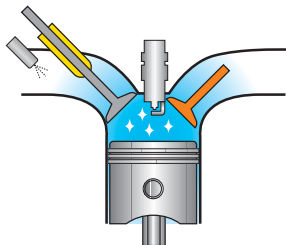

3

The special active ingredient then accelerates the combustion of the deposits.

4

This cleans the inside of the engine.

Toyota is best for Toyota.

Toyota Genuine Injector Cleaner meets Toyota's own strict quality standards, and exhibits performance characteristics particularly suited to the Toyota D-4 engine.

Before

After

Injection nozzle

It removes deposits from the injection nozzle, prevents poor combustion, and can recover sufficient power.

Before

After

Intake valve

It removes deposits from the intake valve, and can achieve better accelerator response.

Before

After

Spark plug

It removes carbon accumulated on spark plug, prevents misfiring, and can also provide better engine starting.

Before

After

Combustion chamber

It removes deposits from the combustion chamber, and prevents engine knocking.

Use of non-genuine parts

The following may result from the use of non-genuine injector cleaner:

- ▶ No improvement in fuel efficiency
- ▶ No recovery of engine power
- ▶ Engine will not run more smoothly
- ▶ No reduction in exhaust emissions
